PROJECTS

I. QuickBuy

Live : (Customer | Admin | Github)

A MERN Stack Shopping Website

- **Full-Stack Development:** Built a dynamic shopping platform with a React.js frontend and a Node.js/Express.js backend, handling product listings, user authentication, and order management.
- **Database & Features:** Designed a scalable MongoDB database for managing customer and product data, implemented advanced search, filters, and a review system to boost engagement and trust.
- **Responsive UI Design:** Developed a clean, user-friendly interface using Tailwind CSS, ensuring a seamless and responsive shopping experience across devices.

II. Portfolio Website

Live : (Portfolio | Github)

- **Frontend Development:** Built an interactive front-end using React.js, ensuring a smooth and engaging user experience.
- **Visual Enhancements:** Added animations and transitions with GSAP to improve visual appeal.
- **Email Integration & Responsiveness:** Integrated Email JS for seamless communication and ensured responsive design for accessibility across devices.

III. Practice Project – Mern Crud App, Digital Clock (Github)

SKILLS AND STRENGTHS

Languages: HTML, CSS, JavaScript, Java

Frameworks: React JS, Tailwind CSS, Node, Express
